

## REMARKS

Applicants acknowledge that the only remaining rejections are of claims 43-46 for indefiniteness and of claim 44 for lack of enablement. In order to advance the application to issue, Applicants have now amended claim 43 to replace "aqueous solution" with "buffer or normal saline," which finds support on page 6, line 28. Applicants have also amended claim 44 to replace the listed compounds with "steroid or non-steroid anti-inflammatory drug," which finds support on page 7, line 11. Non-elected claims have also now been cancelled. Applicants reserve the right to pursue cancelled subject matter in this or later applications.

Applicants submit that the claims are in condition for allowance, and such action is respectfully requested. If there are any charges or any credits, please apply them to Deposit Account No. 03-2095.

Respectfully submitted,

Date: March 7, 2008
